

Colors Without Borders

Paintings by **Cleide Prado**

Hima & Sali, Kaapelitehdas, Helsinki

August 3 – September 30, 2026

Nature, rhythm and the expressive language of color.

***Colors Without Borders** brings together works inspired by **nature, rhythm and the expressive language of color**. Fish, birds, trees and abstract forms become part of the same visual conversation, where patterns repeat, transform and connect different worlds.*

Living between Brazil and Finland has shaped the way I see color - not as decoration, but as a language that crosses cultures, landscapes and memories. In this space, nature becomes pattern, and pattern becomes a way of seeing life itself.

About the artist:

Brazilian Finnish artist Cleide Prado creates art that radiates color, warmth, and joy exploring themes of transformation, belonging, displacement, and the interconnectedness of nature.

About buying

Original paintings are available unless marked as sold. Prints and commissions are also available upon request. Prices are valid for the duration of this exhibition.
